Job Code

This question does not need to be completed by the coordinator at the time of form completion. After the interview has been completed, when the coordinator has more time to assess the response to question 4.1, the coordinator can fill in the appropriate Nam-Powers occupation code (*Complete list is appended to this document*). This is the code under the category “Occupation Code” which is listed to the left of the occupational category. For purposes of this study, do not use the “Occupational Status Score”. If you are unsure about the job code, please submit a help desk request.

Additional codes:

- Biochemist: 076
- Military Position: If the response to this question is a “military position” please contact the Data Coordinating Center, which will provide an appropriate code, which will be based on the civilian equivalent of the military position described. The coordinator must collect sufficient information, such as duties and responsibilities, to enable the Data Coordinating Center to classify the military position to one of the categories from the Nam-Powers Occupational Code list.
